## Remember: They Forced You To Vaccinate

Don't ever let the gaslighters make you forget

Credit to Stevland Ambrose for compiling a thread of images, used with permission. We've also gone ahead and dug up other examples from news articles.

When the gaslighters try to tell you vaccination was voluntary...

Yuiko Murphy - Satan's Woke..
@MurphyYuiko

Nobody was forced to get vaccinated.

Yuiko Murphy - Satan's Wol Follow
@MurphyYuiko
Don't allow them into public spaces unvaccinated. Problem solved.

12:05 PM • Sep 29, 2021

German Minister of Propaganda Health, Karl Lauterbach:
"After all, no one is vaccinated against their will. Even compulsory vaccination eventually leads to voluntary vaccination."

cfi https://centerforinquiry.org , blog , the-myth-of-forced-vaccination
The Myth of 'Forced Vaccination' - Center for Inquiry
The Myth of 'Forced Vaccination'. As America enters its second fall under the pall of the pandemic, there's mixed news. On one hand, most Americans are vaccinated against COVID-19; as of this week about 210 million have gotten at least one vaccine shot. On the other hand the Delta variant is surging..
...Remember these. Most of these will be criminal acts in and of their own. When they gaslight you and tell you it was voluntary or optional, show them this.

$\leftarrow \quad$ Tweet

One of my co-workers refuses to get vaccinated (some dumb medical excuse). We make her eat lunch in the bathroom stall like a horse. Act like an animal, get treated like one.

For the unvaccinated, you're looking at a winter of severe illness and death for yourselves, your families, and the hospitals you may soon overwhelm.

We need to figure out who isn't vaccinated against COVID-19, why they're not, educate them and then take the vaccines directly to them.

This just makes sense.

They hunted you down in vans.

## NHS AND FORD PILOT BESPOKE TRANSIT VAN TO DELIVER COVID-19 VACCINATIONS TO ALL COMMUNITIES

communitles who are vulnerable to COVID-19 and those who might face barriers to accessing traditional healthcare services.
Despite the UK's successful vaccine rollout, COVID-19 vaccine uptake is lower among some communitles facing access challenges. Such communities include those experiencing homelessness, ethnically diverse communitles, travelling communitles and unregistered patients.

To help address this, a specially converted Ford Transit van will begin to travel across Essex from next month, as PP practices work together with local community leaders to safely deliver and administer vaccines in areas of ow uptake.

The Ford Transit will be a hub for dedicated vaccine clinics in the grounds of churches. mosques and other community venues, The NHS and partners across the Mid and South Essex Health and Care Partnership will liaise with community leaders and groups to fill pre-booked appointments to rally and vaccinate as many people from the local communities as possible.
Take-up of the vaccine has been exceptionally strong:19 out of 20 people aged 50 and over have already chosen to take up the offer, which remains avallable. Addilitionally, the number of people from ethnic minority backgrounds coming forward has more than tripled over the last two months. The vaccine van Initlative aims to help continue NHS efforts to administer COVID-19 vaccinations to as many people as possible.

Excellent compilation of historical documentation. Sad to see. And yep, that's how it was, people said those things, I heard it oftentimes in 2021-2022 (less so in 2023) and not just on social media, I heard that all over the place from many friends, family, and colleagues. They fell hard for the fear-hijack psyop. Had they had some $2+2=4$ level of sense, and maybe not slept through highschool biology, they wouldn't be where they are now: multiply jabbed with gawd-noze-whut, many of them with recent onsent heart problems, cancers, and/or neurological and/or food allergies and skin problems. And many of them keep getting covid, over and over, too. I'm not happy to see them suffer, however, I'm never going to forget what certain individuals said and did, and how they actually, actively wanted to see those who refused the jabs suffer. Their saying such things was important information for me-painful, yet very valuable. Now I know whom to avoid, and with whom to proceed only with extreme caution. P.S. I don't get in cars with drunk drivers, either.
