💬 17

We might as well call this issue of Clown World “College Week” because we’re going to be showing you just how far off the deep end these expensive indoctrination camps have gotten. Class is now in session!

Every parent’s worst nightmare

As if worrying about your child coming home from college with a bunch of socialist views that ruin Thanksgiving wasn’t bad enough... Now your child can come home questioning their gender and sexuality while demanding you use their new pronouns.

College is destroying our youth

In 2019, Dennis Prager said of [children coming home from college](#), “For conservative parents, the transformation is far worse. ‘Nightmare’ is not too strong a description. Not

only does their child hold everything they cherish in contempt, but their child, who loved and respected them a year or two before, now holds *them* in contempt.”

Just three years later and they are now boasting about it. Just completing his freshman year, this kid is bragging about how his mother is going to have a heart attack when she finds out he got piercings, a “distasteful” tattoo, changed his pronouns, and became bisexual. At least he admits we were right. “Conservatives were right, college does feminize and lib-cuck you, and it’s [expletive] awesome.”

Colleges Pay to Help Students Transition

When you send your child off to college you expect them to come home with a degree, not a new body. Well, now your child can come home as a brand new gender, with a transition paid for by the university!

[The University of Wisconsin - La Crosse](https://www.libsoftiktok.com/p/weekly-clown-world-update-issue-3) is now offering scholarships for sex change services. Transgender students can receive university funds for “chest binders, packers, breast forms, hormone replacement therapy, legal name/gender change, surgical care, laser hair removal, etc.”

Please select the categories of care (maximum: 3) that you are interested in receiving funds for, with the understanding that it is rare for any student to receive funding for more than one category per scholarship.

- ☐ Body altering device (Such as binders, packers, breast forms, etc.)
- ☐ Hormone replacement therapy (including medication, labs, appointments)
- ☐ Legal name and/or gender change fees and costs
- ☐ Surgical care
- ☐ Laser hair removal
- ☐ Other: _____

Please list your top choice from the categories above and briefly describe how it would apply to you, with the understanding that it is unlikely for any student to receive funding for more than one category per scholarship. Example answer: "Body altering device: binder"

Your answer _____

Care Sought

Please read carefully. Financial support for transgender students on campus can take many different forms. Thrive seeks to support essential aspects of healthcare for trans students including access to hormones, legal documentation, surgical care, and body altering devices.

At this time Thrive does not cover things such as clothing, make-up, birth control, exercise equipment, travel expenses, and legal documents unrelated to name and/or gender change. All final decisions will be made by the Thrive Scholarship Committee. We're more than happy to work with you - please reach out if you have any questions or concerns!

In order to be able to distribute transition materials fairly, Thrive aims to work closely with applicants to find a balance between addressing the individual applicant's transition needs as well as the needs of other applicants.

For example, most chest binders range from \$35-45 in price; however, there are \$120 binders available on the market. Dependent on availability of funds, if a more expensive binder is requested, Thrive would most often be able to contribute \$35-45 towards it. Exceptions apply - feel free to tell us why you need/would prefer the one you're requesting if you'd like to be considered for additional funds.

Pay 150k for a worthless gender studies degree and get a sex change surgery in the process. What a bargain!

College Sex Parties and Monkey Pox Vaccines

[Queens College, City University of New York](#)'s [CUNY LGBTQIA+ Consortium](#) held a Sex Pajama Party yesterday complete with sex supplies and a copy of [Sex Positive You](#). But have no fear, they offered Monkeypox vaccines at the sex party. College can't get much better than this!

About this event

From 6pm to 8pm, CUNY students will play fun games to demonstrate the efficacy of safe sex supplies and safer sex practices. The Jammy Jam featuring DJ Unico will follow from 8pm to 9pm.

There will be prizes - lots of prizes! And there will be food!

Pajamas are encouraged! The first 50 students to arrive in pajamas will receive a copy of the book, *Sex Positive You!*

We will also have an honest discussion on how to set boundaries, access resources, and exercise self-care.

Monkeypox vaccinations and STI screenings will be offered.

Get your free safe sex supplies!!!

This event is made possible through the generous support of the CUNY LGBTQIA+ Consortium in partnership with the New York City Council.

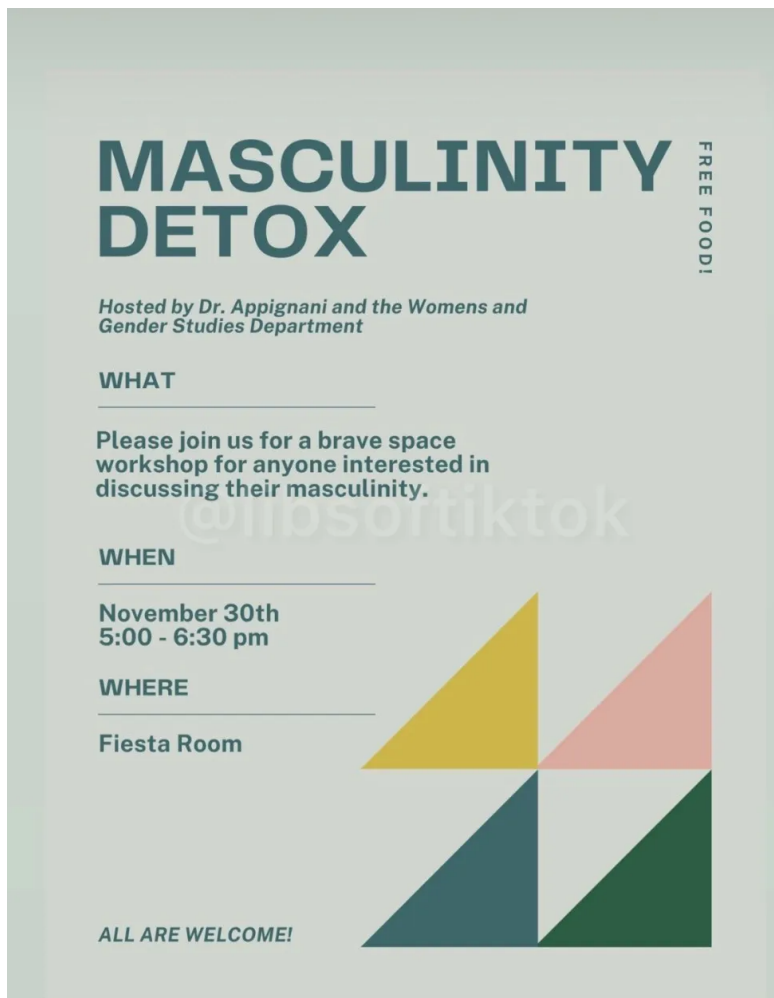

Co-sponsors: The CUNY Office of Student Inclusion Initiatives, the Queens College Office of Compliance and Diversity, Queens College Student Association, the Women and Gender Studies Department at Queens College, the Queens College Alliance of Latin American Students/ALAS, the Center for Racial, Ethnic and Religious Understanding/CERRU at Queens College, the Mt. Sinai Young Adult Sexual Services/YASS!, the Mt. Sinai Sexual Assault and Intervention Program/SAVI, Health Services at Queens College, Queens College Counseling Services Center, and the Queens College Division of Student Affairs

This event will be recorded and archived at the LaGuardia and Wagner Archives

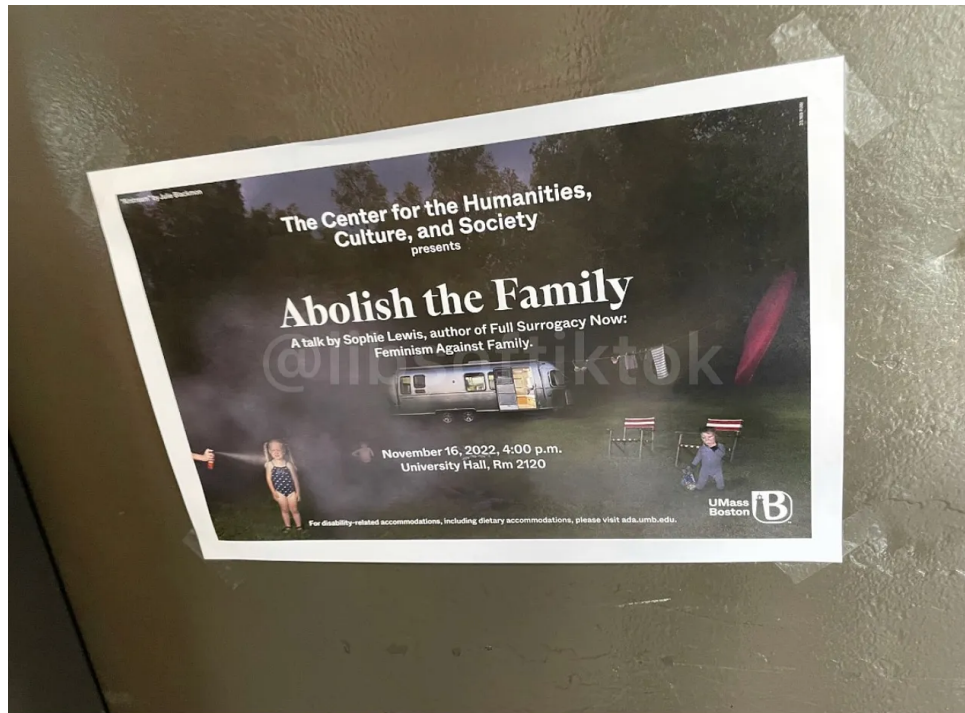

Destroy Men and Abolish the Family

[Trinity University](https://www.libsoftiktok.com/p/weekly-clown-world-update-issue-3) in San Antonio, TX held a workshop for men and anyone else interested, to teach them how to detox their masculinity.

But getting rid of men and masculine traits isn't enough for the ultimate goal of implementing a Marxist utopia, they must first "abolish the family."

The [University of Massachusetts - Boston](https://www.libsoftiktok.com/p/weekly-clown-world-update-issue-3)'s Center for the Humanities, Culture, and Society Boston, hosted a lecture titled "Abolish the Family." The speaker, Sophie Lewis, argues that we need to get rid of natural conception and implement a full surrogacy program where children are conceived bio-genetically through surrogacy to eliminate their biological relationship to their parents. "[Parents] relationship to the babies they gestate must be rethought, as part of a move to recognize that reproduction is productive work. Only then can we begin to break down our assumptions that children "belong" to those whose genetics they share. Taking collective responsibility for children would radically transform our notions of kinship, helping us to see that it always takes a village to make a baby."

Full Surrogacy Now: Feminism Against Family |...

The pro-science Left is not only redefining what science means but they are using it to defy biology and human nature. If they emasculate men, break apart the family, and control the youth they can retain all the power.

Anti-White Racism's New Dictionary

We all know that the woke Left has been trying to exert political control and further cement their victimhood narrative through restrictive changes of language. New and racist glossaries have been popping up all over college campuses, including publicly funded schools. One [glossary](#) completely ignores the actual definition of racism which reads, “prejudice, discrimination, or antagonism by an individual, community, or institution against a person or people on the basis of their membership in a particular racial or ethnic group” and changed it to “the perpetuation of historic, systemic discrimination against Black, Indigenous, and People of Color (BIPOC).”

Here are some of the highlights:

Racelighting- A unique type of gaslighting experienced by Black, Indigenous, and People of Color (BIPOC); “the process whereby People of Color question their own thoughts and actions due to systematically delivered racialized messages that make them second guess their own lived

Colonization- Forms of invasion, dispossession, subjugation, and systematic diminishment of Indigenous peoples, cultures, and spaces.

Color-blind racism- A racial ideology that “explains contemporary inequality as the outcome of nonracial dynamics,” including cultural assumptions, consequences of capitalism and the free market, and other natural phenomena. It is centered around the core belief that race-based differences don't matter, ignores

Remember when microaggressions were all the rage? Now, we have a whole new micro list: microresistance, microinvalidations, microassaults, microinsults and microaffirmations. My favorite, benevolent prejudice — you can't even be nice without being called racist.

have done anything to harm another person. (Select definitions below adapted from DeAngelis, 2009)

Microaffirmations- Small yet significant acts of opening doors to opportunity, gestures of inclusion and caring, and graceful acts of listening that validate the lived experiences of BIPOC.

Microassaults- Conscious and intentional actions or slurs, such as using racial epithets, displaying swastikas or deliberately serving a white person before a person of color in a restaurant.

Microinsults- Verbal and nonverbal communications that subtly convey rudeness and insensitivity and demean a person's racial heritage or identity. An example is an employee who asks a colleague of color how she got her job, implying she may have landed it through an affirmative action or quota system.

Microinvalidations- Communications that subtly exclude, negate or nullify the thoughts, feelings or experiential reality of a person of color. For instance, white people often ask Asian-Americans where they were born, conveying the message that they are perpetual foreigners in their own land.

Microresistance- Small individual or collaborative efforts that empower marginalized people and allies to cope with, respond to, and/or challenge microaggressions, with a goal of disrupting oppression as it unfolds in daily life and creating more inclusive institutions

Prejudice- A judgment or unjustifiable, and usually negative, attitude of toward a particular group and its members. (Definitions below adapted from Whitley and Kite, 2010)

Ambivalent prejudice- A mixture of positive and negative beliefs about and feelings toward another group, resulting in ambivalent attitudes towards members of that group.

Aversive prejudice- A form of prejudice in which people feel uncomfortable interacting with members of minority groups and so avoid contact, while attempting to be polite and correct when contact with members of minority groups is unavoidable.

Benevolent prejudice- A form of prejudice that is expressed in terms of apparently positive beliefs and emotional responses to targets of prejudice. This prejudice often manifests as chivalrous acts towards women or white saviorism.

Hostile prejudice- A traditional form of prejudice expressed in terms of negative beliefs about and emotional responses to the targets of prejudice.

Modern symbolic prejudice- A form of prejudice that avoids blatant derogation of marginalized groups. This prejudice is rooted in abstractions, such as cultural stereotypes, rather than direct experiences with members of those groups.

We get it, white people are bad. When are we going to be able to call this what it is? Racist indoctrination.

Check out a few of the new racist dictionaries for yourself.

Free Florida Female Dec 2

Why would any parent PAY for this insanity? Why would any alumni support a college promoting this bilge?

NCmom Writes NCmom's Newsletter Dec 2

It does not take a village to make a baby. I've made two with my husband. There was no village involved. That'd be creepy.
