Florida school board forced to remove dozens of books after parents read 'graphic' passages aloud

One concerned citizen was escorted away from the podium by security while reading

GOP pushes for parental access to schools, lessons, books

Fight for Schools executive director Ian Prior says schools focus too much on social issues over academics and parents should have more transparency in their children's education.

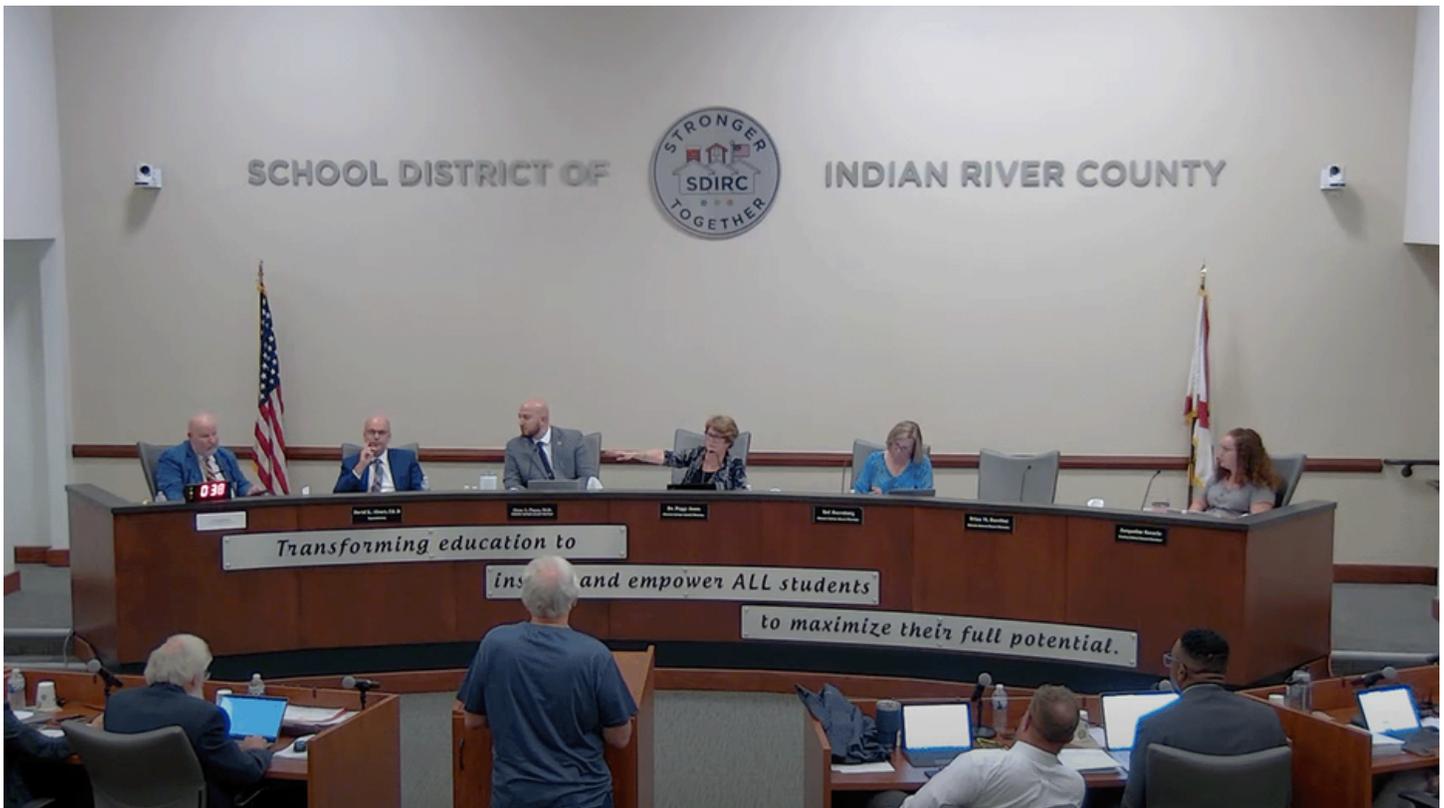

A Florida school board [voted unanimously to remove](#) several dozen books from school shelves after concerned citizens read graphic excerpts from the hotly debated novels.

The board decided to remove the books in question because of a rule signed by Florida Gov. Ron DeSantis in May that states parents "shall have the right to read passages from any material that is subject to an objection."

Under HB 1069, if a school board denies parents the right to read passages considered "pornographic" or "harmful to minors," the school district must discontinue the use of such materials.

During the Monday meeting at the Indian River County School Board, over 30 parents and community members successfully had the books removed when they were cut off from speaking at the podium.

In one viral video posted to social media, Pastor John K. Amanchukwu Sr. was interrupted by the board while reading the book "13 Reasons Why" by Jay Asher.

"As if letting him finger me was going to cure all my problems," Amanchukwu Sr. read from the book.

"Sir, I'll stop you there," one board member responded.

When Amanchukwu Sr. continued reading from the book, [security swiftly escorted him away](#) from the microphone.

Another parent was cut off while attempting to read a passage from the book "Living Dead Girl" by Elizabeth Scott, describing an incident where an adolescent is pushed and has her pants forcibly removed.

SCHOOL BOARD PRESIDENT ON BEING SUED BY CALIFORNIA AG OVER PARENTAL RIGHTS POLICY: THIS WILL 'EMBOLDEN' OTHERS

"We are adults and if there are children out there. I understand that. I understand that. But we don't want to be reading that aloud," Indian River County School Board Chairwoman Dr. Peggy Jones told the parent.

"Even with the first letter, this is really graphic. And we have a rule here. Nothing obscene. We haven't heard the actual words but I think we've heard enough," Indian River County School Board member Jacqueline Rosario said to another parent.

Rosario, speaking with Fox News Digital, noted that she was the only board member that voted to remove the books read at Monday's meeting back when they first voted on the issue in 2022. She also claimed that board members chose to ignore laws (Fl. St. 847 and 1006.28) on pornographic, obscene, or sexually explicit content by making the books available in school libraries.

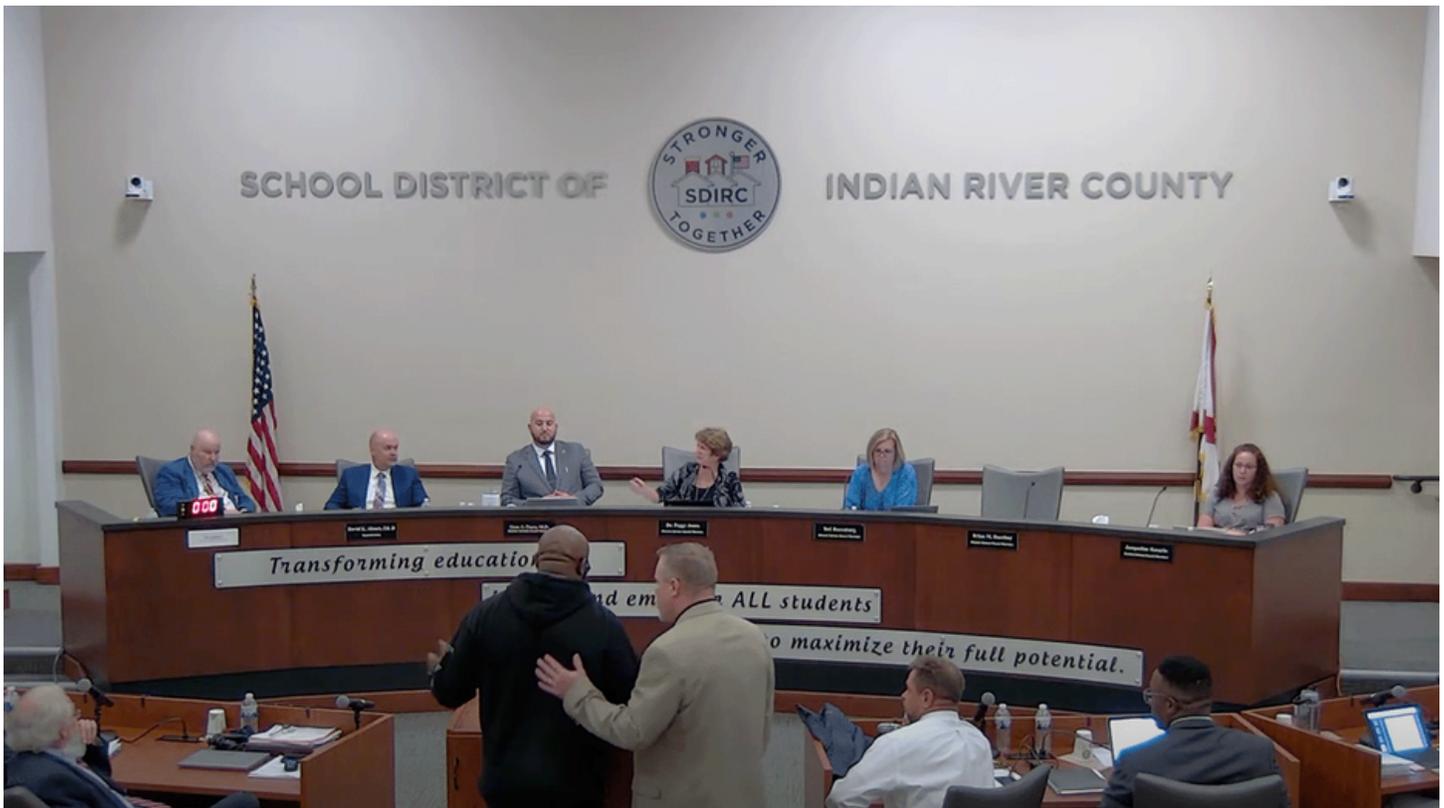

"The difference now is, HB 1069 has allowed parents to read explicit books at board meetings. And if they get shut down, then the book is immediately removed. This is a good thing," she added. "It is the litmus test for acceptable age appropriate and standards driven library books. If you can't read them at a board meeting, then you can't have them in our schools. All that is needed now is for a "passage" to be read and the book can be removed immediately. The superintendent and board members refused to acknowledge the gross content made available to kids until now. Finally, they don't have a choice. It's about time the truth be made known. Explicit, sexually graphic, pornographic, and obscene material does not belong in any school."

While it is unclear how many books were removed, dozens of people read passages [from different books](#).

The unanimous motion from the board called to "have the books removed that were read – which either had to be stopped or given a warning – to be removed immediately."

The board further stipulated that the books would be removed "as long as there's verification that what was read was actually in the book that is on the shelves."

Some board members were frustrated with how citizens at the meeting conducted themselves, according to CBS 12 News.

"You could just pick up the phone and call the superintendent and say, 'Hey, here's an excerpt from this book. And let's get it taken care of that way because things have changed,'" Vice Chair of the Indian River County School Board Teri Barenborg told the news outlet.

In a comment to Fox News Digital, the School District of Indian River County (SDIRC) said the board listened to the community and unanimously voted to take "bold" and "swift" action to remove the books.

"Our Board Chairman, Dr. Peggy Jones, upheld the individuals' First Amendment rights while at the same time providing warnings regarding content. All Florida school districts are currently awaiting the dissemination of the list from the FLDOE with materials that were removed or discontinued as a result of an objection during the 2022-2023 school year," Cristen Maddux, a public information officer with the Office of the Superintendent, said.

The parental rights group Moms for Liberty pushed the effort to remove the books. The group's Indian River County Chapter chairwoman, Jennifer Pippin, told [Florida Voice](#) she was "happy" with the decision but "disappointed" in board members who "made us challenge these books twice" for two years.

Pippin said the group plans to challenge more books that are currently listed on the district website, including "Tilt" by Ellen Hopkins, "Homegoing" by Yaa Gyasi, "Collateral" by Ellen Hopkins and "The Assassin's Blade" by Sarah J Maas.

It would not require parents to take this kind of action provided the school board members and administrators for the district are doing their jobs.

I can't believe these school board members think this was appropriate for kids to read but it's not appropriate for the school board members to hear. Thank goodness for Ron DeSantis for making this law. It needs to be like this in every state.

I'm still trying to wrap my head around the concept that a book is not fit to be read at a board meeting by adults, but IS fit to be read in a public school by children.

If any member of the faculty or school board actually cared about the children, they would not have allowed the books into the school curriculum to begin with, regardless of the law. All reason and sanity seem to be gone and school are now government reeducation and grooming centers.

Desantis needs to change the rule that if parent(s) object to a book and the school board declines the immediate removal of the book, then the president of the board MUST read the selected passages selected by parents at the next board meeting. No exceptions.

This is a clever, terrific, common-sense rule, for which I applaud Governor DeSantis for approving, and parents, for actively applying. Makes all the sense in the world. If you can't hear it read in an adult setting, then remove from the school libraries. How can the Left argue against that logic? ...

As if these books ever had any place in a school library to begin with! Good for the parents!

If an adult can't read book passages in an adult school board setting with parents concerned with the content of the books THEIR children have access to. Then the books shouldn't be available to the children.

When parents, and people in general, hear what the passages actually say, it is indefensible. There is no rational argument for keeping them available in school. Any sexually explicit books should not be in school libraries, no matter the sexual orientation, gender, whatever. Parents are just...

This is probably one of the few laws that I agree with Cons. Parents SHOULD have a full right to know what their kids are reading. This is the law that does it for you? How about the anti-grooming laws? Or the anti-transitioning laws? Or all the laws meant to protect children? You know that dems are fighting these types of laws all the time right?

No decent parent can possibly be a liberal.

Makes sense. If a book is too offensive for adults to read it to other adults during a meeting it shouldn't be in a public school. Kids can still legally get and read these books so they aren't actually banned in Florida. School libraries just don't have them.

Surely as educators they put time, effort, and thought into the reading selections so why is it so overboard to read from the books they claim are suitable for children aloud?

They got caught. Kudos to the parents for doing what the schools would not which is to look out for the kids best interest

I am not for burning or banning books. However, simply, if a book can't be read aloud at a school board meeting then that book should not be allowed in the school's library, especially the K-12 age group.

Reevaluate for middle school and senior high school.

The only reason the board voted that way is because the new law forces them to. If it was up to them it would be business as usual and the books would have stayed.
