Leo Hohmann: Why is the IRS Buying .40-Caliber Submachine Guns?

IRS agents training with guns.

*Guest post by Leo Hohmann**This article originally appeared on [Leo Hohmann's Substack](#) and was republished with permission.*

The weaponization and militarization of the federal government continues unabated as Congress and the states sit back and do nothing

When the corporate media asked the IRS why it needed automatic weapons, millions of rounds of ammunition and heavily armed staffers trained in the “use of deadly force,” they said it was for “administrative reasons.”

But we now know that the globalists are not just arming the IRS, along with just about every other federal agency. They are militarizing these agencies to the hilt with military-grade weapons not available to American citizens.

[As Banks Get Downgraded and Americans Scramble to Protect Retirement Accounts With Physical Gold and Silver, A Faith-Based Company Shows Them How](#)

Why, for instance, would the IRS need armored vehicles, flash-bang grenades loaded with tear gas, and .40-caliber submachine guns?

The IRS has been arming up for at least ten years. At the end of 2017, the IRS had 4,487 firearms and 5,062,006 rounds of ammunition in its weapons cache, according to an August 8, 2022, Forbes article, [“Inflation Reduction Act Unleashes A Tougher IRS.”](#) You can bet they’ve got a lot more than that stored up six years later in 2023.

Here's an excerpt from the Forbes article:

"The Schumer–Manchin tax bill known as the [Inflation Reduction Act](#), which passed the Senate on Sunday, raises taxes and will give [the IRS billions to go into what the Wall Street Journal called 'beast mode.'](#)"

The video below by Mark Gifford, a pastor from Lee's Summit, Missouri, who runs the God Family and Guns YouTube channel, explains why this militarization is taking place.

The IRS has been stepping up its purchases of guns and ammunition even more over the last two years, gobbling up [nearly \\$700,000 in ammo in early 2022](#). That bulk purchase prompted Representatives Matt Gaetz (R-FL) and Jeff Duncan (R-SC) to [introduce](#) the "[Disarm the IRS Act](#)," to prohibit the IRS from buying ammunition. Of course, this bill was dead on arrival because the Uniparty in Washington, which includes all Democrats and a solid majority of Republicans, are all for a militarized federal government. They hate Americans and do not represent Americans. They are globalists whose allegiance is to the military-industrial-biosecurity complex.

The IRS is not alone in this militarization.

The U.S. Department of Agriculture has also purchased [hundreds of .40-caliber submachine guns](#), presumably for making raids on independent food producers. They have a special hatred for the Amish (See [Food Supply Attack: U.S. Government Raided and Shut Down Golden Valley Farms, an Independent Meat Producer](#))

The USDA raided the Fisher family's farm in Farmville, Virginia, and [seized their livestock and meat-processing facility](#) as the state condemned and seized their property. They are Amish.

The Small Business Administration has also made bulk purchases of guns and ammo. Health and Human Services has done the same.

Is the federal government preparing for all-out war against Americans who push back against the government-media-approved messaging on pandemics, our involvement in perpetual foreign wars and other globalist policies?

You get the sense that maybe, just maybe, enough of us are waking up that the globalists are preparing to silence us once and for all, and the only way to complete that task is by force? All it would take is to make an example out of a few dozen, maybe a few hundred outspoken conservatives. The goal going forward would be to criminalize all speech that contradicts the messaging coming out of the government and its corporate partners. At that point, the globalists' hope would be for conservatives to start turning on each other out of fear that they could be next. Cut a deal to turn in a fellow conservative, thereby saving your own skin from the reign of terror. This is how life goes down under fascist regimes like the one now in power, so don't be surprised if they move in this direction. It would probably happen after they steal yet another election in November 2024. They monitor everyone's online speech so it would be easy to pull off. They make some high-profile arrests and incentivize people to turn on each other. This would be especially effective in a time of economic hardship when people have hungry family members. Turn in a neighbor on false charges and get a month's worth of food delivered to your door.

The indictments of Trump supporters in Georgia and Michigan have already sent a chilling message. But the deep state is moving on more than that one front. They've also been arresting pro-life protesters and throwing the book at them, prosecuting them under the corrupt FACE Act. Protesting abortion has been a mainstay of American life since the early 1970s. Now the government is cracking down and sending messages that things are different. Such protests will no longer be tolerated.

From LifeSite News in an [article posted Tuesday, August 29:](#)

A jury on Tuesday found five pro-life activists guilty of violating the Freedom of Access to Clinic Entrances (FACE) Act and conspiracy against rights. They were immediately incarcerated following the verdict and could face more than a decade in prison for their efforts to prevent women from killing their preborn babies.

Did you catch that? You can now get 10 years or more for peacefully praying with and counseling women outside of an abortion clinic. The article goes on to explain that these pro-life Americans were considered by the judge to have committed a "crime of violence" simply for holding pro-life views and being willing to share them publicly in proximity to a baby-butcherer clinic. The irony is hard to miss.

In the month of August alone, four Americans had their homes broken into and invaded in pre-dawn raids by the FBI, which in each case executed the suspect in cold blood. One case involved a 100 percent disabled [U.S. military veteran in Henderson, Tennessee](#), who was unarmed at the time he was shot on August 16. Another case involved a 74-year-old man in Provo, Utah, who was obese and unable to walk without a cane but he was [shot dead by the FBI on August 9](#).

From what I can tell, none of these poor souls posed any sort of imminent threat to their families or communities. The Utah man posted threats against Biden on his Facebook page, but clearly lacked the ability to carry them out. The feds could have arrested the guy peacefully while he was pulling out of his driveway. But no, they needed to make a statement.

After enough Americans are executed in this fashion, and fear of speaking out becomes ingrained in society, I can see a day, perhaps sooner than we think, when political dissidents will simply disappear. No one will know what happened to them as they vanish into the gulag.

The situation is growing more serious with each new episode. The best way to stop this troubling trend from expanding is for more people to speak out even more boldly than ever. Stay peaceful but do not hold back your verbal opinions. They cannot kill or arrest us all. There is strength in numbers. Pray for peace and for more time before the inevitable societal collapse goes down. I sense that people aren't ready for what's coming. Even if they are waking up, they aren't ready for a reality in which they are declared criminals simply for something they said or wrote.

Why is the IRS buying 40 cal machine guns you ask? Because the federal government in America and the entire western world is at war against THE PEOPLE they govern because THEY want their NEW ONE WORLD ORDER whi there is no room for NATIONALISM in.

The finances of the United States Government are about to collapse. All it will take is a recessic combined with an inability to sell any more of its treasury bonds, no matter the rate of return. Hyperinflation, declining tax revenues, and desperation. That's why the IRS is buying machine guns.

Marx's manifesto is famous for summing up his theory of Communism with a single sentence: "Abolition of private property."

They're buying submachine guns because the agents are unable to hit the target they are aiming at. So they just pull the trigger and wave the gun around expecting perhaps one bullet will hit it's mark. Sort of like the crooked prosecutors who are indicting Trun with numerous charges, hoping one will stick.

Seriously !

They were going to adopt 10mm but the fragile female agents couldn't handle 10mm, so .40 was chosen.

So the latest new generation of soy agents find .40 too hard to handle !

What's even more bizarre is why the FDA are arming themselves with the same .40 cal automatic weapons...

What does the Food and Drug administration need to weaponize for?

Angry cow? Mad bull? Those darned Amish? The big aspirin cartels?

Remember how Obambi talked about his "civilian army"...just as well equipped as the military...it's not just antifa/blm...they are just the brown shirts...all of the gov't workers, the ones that always vote d and will do anything for their cushy, overpaid do-nothing jobs...AND THE PENSIONS THEY GET...they are the civilian army Obambi spoke of.

Keeping War Veterans as Domestic Police is essentially fixing a fundamental flaw that Reserve Police Battalion 101 faced with their men.

That is an interesting question, considering that the federal government maintains nonpayment of taxes a civil issue. This means that the federal government is not going to provide a lawyer for those who have had their property and accounts seized.

Imprisonment and seizure of property are criminal sanctions. I would argue that not paying one's federal taxes is a *de facto* criminal infraction and should require provision of counsel at government expense.

Dream on. The Republicans have virtually done nothing to stop the same cheating as what went on in 2020, and 2022. Tell me something if I don't already know it about stopping the cheating Democrats? Watch the cockiness of Biden, Newsom and Obum if you think that I am wrong. If they had stopped the cheaters, then Kari Lake would be governor of Arizona. You are right. In their scenario We weren't supposed to find out about the 'slow boil' until about 2035, if ever. But as We can see reality isn't their strong suit. The one thing that these idiots can't predict is the human element. Theirs or Ours. Trump came along and they couldn't control their egos or their arrogance so their plan fail apart. And it has been crumbling since.

People envision some kind of all-out ground war but the reality of it will be a very slow 10-year 15-year process where they incrementally bear down on you with a hyper surveillance grid and the dissidents will be hunted down like dogs over a period of time. They already have the mechanisms digitally built in and these methods have been tested very thoroughly in places like Communist China which we helped develop a lot of their citizen surveillance based software and hardware

No it won't. See, that is their scenario. But it won't happen that way. We weren't suppose to find out about the slow boil until 2035 or so. What happened? Because it didn't go that way. Trump happened. If not him someone else. They can't control their own arrogance. So they loose.

It's sarcasm. None of our so-called federal agencies defend America's border. The IRS is a private corporation. It was incorporated in Puerto Rico. It's a lie that it has anything to do with our government. It's a collection agency for the bloodsucking Federal Reserve Bank parasite that's

been feeding off America for over a century.

How is it okay for the IRS to have submachine guns while the government wants to prohibit so-called 'assault rifle: from law abiding citizens?

I'd say there's more to this story than what's being disclosed.

Back in the old days, auditors would just show up at your doorstep, seize all your assets and drag you through the court system until you were destitute for life.

Now they just show up at your doorstep and shoot you to get it over with.
